

Industry

ESEC/FSE 2018

[About](#) [Program](#) [Accepted Papers](#) [Call for Papers](#)

Call for Papers

Good industry track papers might fall in the following categories:

- You articulate a new research challenge that you think should be researched.
- You have a tech transfer story to share.
- You have an experience report of a case study that brings out lessons that are worth sharing with others.

Here are examples of papers from the previous year: http://esec-fse17.uni-paderborn.de/program_industry_track.php

How to submit

Papers must be submitted electronically through the FSE Industry Track submission site.

Submissions will be managed using Easychair, at the following link: <https://easychair.org/conferences/?conf=esecfse2018industry>

Format and submission procedure

All papers must use the formatting described on the [ESEC/FSE 2018 submission format](#) page, and must not exceed 6 pages, including references. However, submissions are not required to be double-blind and thus should not use the “anonymous” (omitting author names) formatting option.

Submissions must be in English and in PDF format. Papers must be submitted electronically through the conference submission site. Papers submitted for consideration should not have been published elsewhere and should not be under review or submitted for review elsewhere during the duration of consideration. ACM plagiarism policies and procedures shall be followed for cases of double submission. Submissions that do not comply with the foregoing instructions will be desk rejected without being reviewed.

Each submission will be reviewed by at least two members of the Program Committee. Submissions will be evaluated on the basis of practical relevance, soundness, quality of presentation, and appropriate comparison to related work.

Presentation and publication

Authors of accepted submissions will be given a time slot to present or demonstrate their work during the conference. Accepted industry track papers will be allocated up to 6 pages in the main conference proceedings.

Note: The official publication date is the date the proceedings are made available in the ACM Digital Library. This date may be up to two weeks prior to the first day of FSE 2016. The official publication date affects the deadline for any patent filings related to published work.

At least one author of each accepted paper must register and present the paper at FSE 2016 in order for the paper to be published in the proceedings. One-day registrations do NOT satisfy the registration requirement. Please carefully read the complete list of [ESEC/FSE 2018 submission policies](#).

Important Dates	AoE (UTC-12h)
Mon 10 Sep 2018 Camera ready deadline	
Wed 25 Jul 2018 Notification to authors	
Fri 22 Jun 2018 Submission deadline
